## **DETAILED ACTION**

## Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 2, drawn to a trimmer head having the special technical feature of eyelets are placed around the same axial position on the trimmer head housing.

Group II, claim(s) 3 and 4, drawn to a trimmer head having the special technical feature of the different sections of the bobbin being separated by at least fragments of a wall.

Group III, claim (s) 5 and 6 drawn to a trimmer head having the special technical feature of the same number of eyelets at least the same as the number of cutting filaments.

Group IV, claim(s) 7-10. drawn to a trimmer head having the special technical feature of a v-shaped eyelet.

2. The inventions listed as Groups I-V do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: as listed above, each pair of groups are not related to the same special technical feature, having distinct technical features.

- 3. Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.
- 4. The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.
